PROFILE

济南盖特汽车部件有限公司坐落于风景秀丽，人文基础深厚的千年古城—中国山东济南市。依托于山东省雄厚的汽车工业基础及山东理工大学在汽车汽车配件及汽车电子方面的超前研发能力，积极发展汽车电子、汽车注塑及汽车冲压件产品。

Jinan GAT Auto Parts Co., Ltd. (GAT) located in Jinan, as a beautiful view and human civilization profound thousand years' old city in Shandong, P R China. GAT promotes the automobile intelligent electric parts rely on abundant automobile industry foundation of Shandong Province and advanced R&D capacity in automobile electric internet applications of Shandong University .

RESEARCH & DEVELOPMENT

盖特汽车部件拥有一支由具备扎实的专业基础及丰富的设计经验的年轻人组成的开发团队，核心团队成员具备工学博士、工程硕士学位，并具备专业行业5年以上工作经历。

GAT Auto Parts co. owns an excellent team these members are professional with a solid foundation and rich experience in the design. The core team members have the Doctor and the Master's degree of Engineering, even professional sectors more than 5 years work experience.

RESEARCH & DEVELOPMENT

在汽车电子领域，公司在如智能化汽车照明系统、后视系统、雨刷以及其他智能汽车电子方面拥有丰富的设计生产经验。在汽车冲压件领域，公司精于五金冲压件、五金拉伸件等汽车配件的制造，特别擅长小型、精密的五金零部件的加工；依托于山东大学CAD中心，公司在异型、精密注塑件的设计加工方面取得长足进展。

In the field of automotive electronics, GAT has extensive experience in design and production, such as intelligent automotive lighting system, rear-view system, wipers, and other intelligent automotive electronics. Stamping parts in the automotive field, the company specializes metal stampings, metal parts such as stretching the manufacture of auto parts, especially is good at small-scale, precision metal parts processing; relying on the CAD Center in Shandong University of Technology, the company has made considerable progress in the design of profiled, precision injection molded parts.

“GAT”系列产品深深贯彻“满意创造价值”的企业理念，致力于“以提高驾乘舒适、安全性”为设计思想的汽车配件产品开发工作，产品已经开始为国际、国内汽车制造商、改装商所采用，并获得用户的一致好评。“GAT” constantly promote the idea of “satisfaction with the valuation” and “improve comfort and safety of drive”, in international development tendency of brainpower lighting system, cleanout system, backsight system and electron we make a leap breakthrough. GAT products have purchase by international auto producer, inner auto producer and refit customer, and achieve them appreciation

PRODUCTS

汽车电子

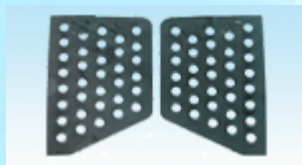

智能汽车照明系统（A版）可根据环境照度、路面路况自动调整照度及照射角度（跟整车传感系统配合）。B版实现对国内绝大多数汽车灯具的智能化改造（具备A版的绝大多数功能）。可实现自动防眩目、方向指南、温度检测和倒车雷达及倒车角度自动调整的组合功能。

GAT Intelligent Car Lighting System A development version based on the ambient illumination, road traffic automatically adjusts the illumination and exposure angle (with the sensor system with the vehicle). On the existing vehicle transformation of intelligent lighting system may choose GAT Automotive Intelligent Lighting System B version can be realized on the internal transformation of the vast majority of intelligent vehicle lamps (with A version of the vast majority of functionality). Can realize auto-dimming, direction guide, temperature detection and parking sensor and reversing a combination of automatic adjustment function of the angle.

PRODUCTS

汽车冲压

盖特汽车部件拥有大型油压机和机械压力机，并为冲压线配套了相应的开平、剪切机床，和为冲压件分总成供货配套了相应的组焊线，可完成精冲、折弯、拉伸、焊接四大工序，具有月18万冲次的生产能力，可完成汽车车身各种规格精密冲压件、汽车电子、汽车灯具所需各种小型精密冲压件，产品加工精度高，质量稳定。

GAT Auto Parts Co., Ltd has a number of large-scale hydraulic machines and mechanical press production lines, and corresponding matches unfolding, shearing machines. For the stamping sub-assembly supplier group, GAT CO. matches the corresponding welding line. GAT CO. can complete the capacity of 180,000 stamping times per month, including the four processes: fine blanking, bending, stretching, and welding. GAT Auto Parts products include all kinds of precise stamping parts, automotive electronics, and some small stampings in automotive lamps. GAT CO. products process high precision and stable quality.

PRODUCTS

汽车注塑

济南盖特汽车部件有限公司拥有最大注射量从60KG 到2000KG注塑机组，包括PC专用注塑机及其他专用注塑机，可完成各种尺寸、形状工件注射成型工作。盖特汽车部件有限公司注塑产品包括汽车用各种注塑成型车身附件、电子元器件外壳、汽车灯具外壳等。并可以根据客户要求，完成各种复杂工件注塑成型任务。

GAT Auto Parts owns the plasticate set that injection volume from 60KG to 2000KG, including the PC-specific and other special injection molding machines. It can complete many injection models that have different sizes, shapes. Plastic products of GAT, include auto body molding accessories, electronic components shell, and the shells of other automotive lamps. GAT auto parts CO. can complete the complex task of injection molding parts according to the customer's requirements.

PRODUCTS

汽车灯具

盖特汽车部件具备完整基于卤素光源为光源核心传统汽车灯具的设计开发手段，重点进行基于HID(气体放电光源)的汽车前照灯以及基于LED的信号灯、组合后灯、室内灯的设计、制造工作，能根据客户需求设计制造符合不同标准要求HID、LED光源汽车灯具。盖特汽车部件在汽车后视镜领域除制造传统机械式后视镜，还重点开发可电加热的电驱后视镜系统，与汽车电子技术相结合，不断完善后视镜系统的功能。

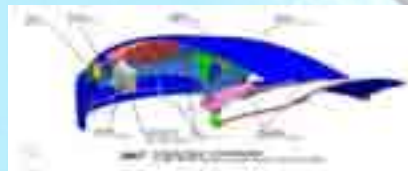

GAT Auto Parts has completed the design and development of traditional auto lighting means. Such as automotive headlamp, signal systems, combination rear lamp, indoor lighting systems, At present, GAT auto parts produce car headlamp HID-based (gas discharge light source), as well as LED-based lights, indoor lamp design, combination rear lamp manufacture, design and manufacture. GAT Auto parts can produce different standards HID, LED lighting automotive lamps according to customer requirements.

LED 重卡前照灯

汽车灯具清洗装置

GAT清洗器原理

GAT清洗器实体 (KAMAZ汽车配套)

为适应HID汽车前照灯逐步向卡车领域推广的趋势，盖特汽车部件率先开发应用于重型卡车的汽车前照灯清洗器，按照《GB 21260-2007 汽车用前照灯清洗器》的要求，充分考虑中国道路路况，能够适应各种恶劣复杂交通环境下对汽车灯具进行快速清洗的要求。2009年，盖特汽车部件为俄罗斯KAMAZ汽车配套设计生产汽车前照灯及相应前照灯清洗装置。

GAT developed and applied the cleaning device in the heavy truck's headlamp , in order to adapt for the trend that HID Headlamp will spread to in the field of truck. GAT produced as the requirement of "GB 21260-2007 AUTO AUTO HEADLAMP WASHER ", and think about the situation of the road in China, the cleaning devices can fast clean when we face any situations in the traffic. IN 2009, GAT designed and produced the head lamp and the cleaning device of headlamp for KAMAZ Auto in Russia.

For Quality

盖特汽车部件严格按照ISO/TS16949规范的要求，从设计过程开始，即关注产品的质量设计，并严把材料采购、加工、过程检验及成品检验关，严格过程控制，力求每件产品都设计制造成符合客户需求的精品，并为客户节约成本！在这一思想指导下，我们的每件产品都根据客户需求，针对相应法律法规规定（如GB、ECE、SAE）进行设计并取得产相关产品认证证书或者强制检验报告。

“持续改进，不断将产品质量缺陷无限趋近于零”是我们的质量目标！

GAT Auto Parts accord to ISO/TS16949 standards strictly accordance with the requirements of the design process from the beginning, that is concerned about the quality of the product design, and strict material purchase, processing, process testing and finished product inspection and customs, strict process control, and strive each products are designed and manufactured into a boutique meet customer needs, and cost savings for "Continuous improvement, constant product quality defects infinitely close to zero" is our quality goals!

For Quality

为了保证产品品质，我们拥有完善的检验检测手段，包括光通量检测、压力检测、气密性检测、弹性系数检测、水流道分析、高低温检测、盐雾试验、金相分析、硬度测试等。

We have perfect test and check measures, include luminous flux test, pressure test, anti-water test, flexibility modulus test, stream path analyze, high and low temperature test, salt and fog test, Metallographic analysis , Hardness testing , etc.

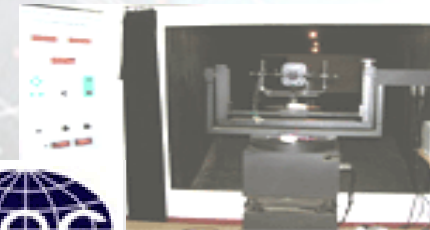

For Quality

根据法规要求，我们所有产品都通过国家强制检测及“3C”认证，并可以根据客户及法规要求需求，对必要产品提供E-NARK认证。

According to the rules requirement, all the products of GAT have achieve “CCC” certification of China. Also we can according to customers and rules requirement, to make E-mark certification.

OUR CUSTOMERS

盖特汽车配件作为智能化汽车电子技术领域创新产品和模块系统的供应商，产品、体系、产品线和服务的不断创新，在与客户的合作中，不断为客户创造新的价值。经过5年多发展，我们的产品已经广泛应用于中国重汽、福田雷沃重工、唐骏欧铃等国内市场，并出口美国及伊朗等多个国家。

Through 5 years development, GAT's products have been widely used in China Heavy Duty Truck, Shanxi Auto and other domestic market ,and export to US, Iran and other mid-Asia and west-Asia countries

Service

盖特为我们的配套客户提供智能化汽车灯具，汽车后视系统、汽车清洗系统的整体解决方案。通过位于在济南的技术中心，为我们的客户提供本地化的销售和服务，使得我们可以和客户一起设计开发客户化的解决方案。先进的技术，完善的生产流程和产品检测手段，确保了我们的产品质量。而经过良好培训的员工使我们在产品、体系、产品线、技术和服务上永远保持创新变革。

GAT provides the whole resolve project of automobile brainpower lighting system, cleanout system, backsight system to OEM customer. Via R&D center in Jinan, we provide the localize sales and service. It can be made with customer as the same time. Advantage technic, perfect producing process and test measure, insured the product quality. First- class Tooling Processing Equipment, manipulated by skillful working staff makes our products' quality and service achieved ahead for ever.

欢迎致电济南盖特汽车部件有限公司！

One developing enterprise,
One lot of creative staff,
an extraordinary team,
Welcome to GAT!
